Dental Health Week To Be Observed Here

"Fewer Sweets Mean Better Teeth." This is the slogan of Dental Health Week which will be observed March 7-11 by the Council on Dental Health of the 3rd District of the Los Angeles County Dental Society.

"This principle is the key to the prevention of dental disease and improved levels of dental health in children as well as adults," stated Dr. Arthur Berke of Torrance, who is serving as Chairman of the annual educational event. Dr. Berke extended an invitation to all community groups, youth organizations, schools and civic bodies to participate in Dental Health Week activities. Speakers, films and literature are available on request through Committees organized in every community within the Torrance area. Dr. Berke announced that the Torrance Dental Health Association is headed by Paul Diamond, president.

Construction Starts On Unit

Ceremonies marking the official start of construction of the first \$24,000,000 unit of Southern California Edison company's new Alamitos Steam Station adjacent to the San Gabriel River east of Long Beach were held recently at the plant site. Mrs. Katharine Bixby Hotchkis, descendant of the pioneer Southland Bixby family which originally owned the Rancho Los Alamitos on which the plant will be located, released the throttle on the giant pile driving machine which drove one of the huge foundation pilings for the new station into place.

Harold Quinton, Edison company president; James F. Davenport, vice president and general manager; W. L. Chadwick, vice president, and Charles Campbell, Long Beach district manager, participated in the ceremony. Members of the boards of supervisors from Los Angeles and Orange counties were in attendance, as well as two hundred city and county officials and other guests from Los Angeles and Orange counties.
